

Viswanathan T J Software Engineer

✉ viswanathantj@gmail.com ☎ 9597010099 🔗 viswa2k.in 🌐 viswanathanTJ 🔄 viswanathanTJ

SKILLS

Framework & Technologies

- J2EE, Spring Boot
- Kafka, OAuth, Micro Services
- Docker, Kubernetes, AWS, Google Cloud

Frontend Development

- Technologies: HTML, CSS, JavaScript
- Frameworks: React, Next.js
- Styling: Bootstrap, Tailwind CSS, Shadcn/ui

Backend Development

- Languages: Python, Java, Node.js, PHP
- API: REST
- Databases: MySQL, MongoDB, Firebase, Redis
- Authentication: OAuth, JWT
- Security: Encryption, Hashing

PROJECTS

Marksheet Management 🔗

07/2021 – 10/2021

Languages: Python, HTML, CSS, JS

Libraries & Frameworks: Flask, Bootstrap

Password Manager 🔗

09/2020 – 12/2020

Languages: Python, HTML, CSS, JS

GUI: PyQt5 Web: Flask

Database Supported: MongoDB, Firebase

EDUCATION

Master of Computer Applications,

Kongu Engineering College

10/2021 – 04/2023

B.Sc Computer Science,

Thiagarajar College

04/2018 – 05/2021

CERTIFICATES

- RHCSA - EX200 Red Hat Certified System Administrator 🔗
- Hackathon - State Level Participation
- IOT - Challenge Participation

PROFESSIONAL EXPERIENCE

Software Development Engineer, Zoho Corporation

06/2023 – present

- **Developed a CLI application** that automated server configuration and deployment, reducing setup time by 60%, accelerating testing workflows, and eliminating manual setup steps.
- **Engineered a common API gateway** for integration services, streamlining CRUD operations and optimizing data flows between 10+ external systems.
- **Designed a unified table structure** to centralize integrated service data, ensuring consistency and accurate synchronization across services.
- **Boosted system communication** by implementing real-time synchronization, ensuring accurate and timely data updates across 7 services.
- **Refined SQL queries and API performance**, cutting response times by 40% and supporting 50K+ transactions per day during peak traffic.
- **Resolved 80+ production issues**, minimizing system downtime by 25% and improving customer satisfaction by 30%.
- **Led debugging efforts**, cutting critical issue resolution time by 25% and improving system reliability across integrated services.

INTERNSHIP

Software Development Engineer Intern, Zoho Corporation

07/2022 – 05/2023

- **Built a full-stack project management tool**, integrating front-end and back-end technologies to enhance user experience for over 200 active users.
- **Streamlined integration processes** for multiple services, reducing integration time by 30% and improving system interoperability.
- **Refined legacy code**, increasing system performance by 20% and improving long-term maintainability.
- **Created automation scripts** that simplified workflows, eliminating 25% of manual tasks and speeding up development cycles.
- **Troubleshooted and resolved 30+ production issues**, decreasing resolution time by 35% and enhancing system stability.
- **Enhanced SQL queries** and optimized API calls, improving system performance during periods of heavy user load.
- **Tested and deployed applications**, ensuring 99.9% uptime in a production-like environment with no functionality issues.
- **Collaborated with senior engineers** to implement scalable solutions that bolstered system security, optimized performance, and elevated user experience.
