

Viswanathan T J

Full Stack Developer

✉ viswanathantj@gmail.com 📍 TamilNadu, India 🔗 viswa2k.in 🌐 viswanathanTJ

🔄 viswanathanTJ

Profile

Full-stack developer with experience in building scalable applications and managing end-to-end development processes. Proficient in cloud computing, Linux administration, and modern web technologies. Passionate about solving complex problems and delivering high-quality solutions.

Professional Experience

06/2023 – present
Chennai, India

Zoho Corporation

Member Technical Staff

- Developed a script to set up source code on a local server and implemented watcher scripts to streamline development workflows, enabling a CI/CD-like environment and boosting code writing speed by 60%.
- Designed and implemented a common gateway for integration services API calls, simplifying the CRUD operations for new integration APIs.
- Developed a unified table structure for storing integrated service entities and their association records, ensuring consistent data management across services.
- Enhanced system communication by unifying record updates in Zoho Projects, synchronizing notifications across all integrated services.

08/2022 – 05/2023
Chennai, India

Zoho Corporation

Project Trainee

- Participated in the development and integration of services within Zoho Projects, ensuring seamless interoperability across systems.
- Enhanced the efficiency of legacy processes by implementing optimized code solutions.
- Collaborated with the team to identify bottlenecks and implemented solutions to improve overall project performance and delivery.

07/2022 – 08/2022
Chennai, India

Zoho Corporation

Summer Intern

- Designed the database schema, user interface, and application workflow for a simple project management tool.
- Built the application using Servlet, Java, HTML, CSS, and JavaScript, ensuring seamless integration of front-end and back-end functionality.
- Source code available on Github [🔗](#).

Education

10/2021 – 04/2023
Erode, India

MCA

Kongu Engineering College

CGPA: 7.84 / 10

04/2018 – 05/2021
Madurai, India

B.Sc Computer Science

Thiagarajar College

CGPA: 9.04 / 10

Skills

Frontend Development

- Technologies: HTML, CSS, JavaScript
- Frameworks: React, Next.js
- Styling: Bootstrap, Tailwind CSS, Shadcn/ui

Python Skills

- Web: Flask, Django
- Data: Pandas, NumPy
- Automation: PyWin32, PyAutoGUI, Playwright
- Databases: SQLite, MongoDB, Firebase
- Deployment: Gunicorn, Heroku

Cloud & DevOps

- AWS, Docker, CI/CD

Backend Development

- Languages: Python, Java, Node.js, PHP
- API: REST
- Databases: MySQL, MongoDB, Firebase
- Authentication: OAuth, JWT
- Security: Encryption, Hashing
- Deployment: Docker, CI/CD, AWS

Version Control

- Git, GitHub, GitLab

Additional Skills

- Problem Solving, Performance Optimization

Projects

07/2021 – 10/2021

Marksheet Manager [🔗](#)

A streamlined system for automating academic document generation and communication.

- Generates student marksheets, department reports, and hall tickets.
- Automates sending marksheets and hall tickets to students via email.
- Simplifies document management with efficient workflows and scalability.

Frameworks Used: Flask, pdfkit, pandas, numpy, openpyxl, pywin32, xlswriter.

09/2020 – 11/2020

Password Manager [🔗](#)

A secure, multi-user web application for managing and encrypting passwords with advanced security features.

- Supports CRUD operations with robust encryption and decryption.
- Implements hash verification for secure logins and strong password storage.
- Features a responsive GUI for seamless multi-user interaction.

Frameworks Used: Flask, Flask-Login, bcrypt, cryptography, pymongo, dnspython, pytz, gunicorn.

04/2020 – 05/2020

Portfolio Website [🔗](#)

A static, responsive portfolio website built using Next.js to showcase projects, skills, and professional achievements with a modern and user-friendly design.

Certificates

- RHCSA - EX200 Red Hat Certified System Administrator [🔗](#)
- IOT - Challenge Participation

- Hackathon - State Level Participation
- Chess - State Level Open Chess Participation

Courses

Post Graduate

- Cloud Computing
- Linux Administration
- Automation
- Machine Learning

Under Graduate

- Data Structures & Algorithms
- Design and Analysis of Algorithms
- Object Oriented Programming
- Unix Tools and Scripting
